MIND WHAT MATTERS

INDEPENDENT AUDITORS' REPORT

Board of Directors
Lincoln/Lancaster County Habitat for Humanity, Inc.
Lincoln, Nebraska

Opinion
We have audited the financial statements of Lincoln/Lancaster County Habitat for Humanity, Inc. (the Organization), which comprise the statements of financial position as of June 30, 2025 and 2024, the related statements of activities and changes in net assets, functional expenses, and cash flows for the years then ended, and the related notes to the financial statements (collectively, the financial statements).

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of the Organization as of June 30, 2025 and 2024, and the changes in its net assets and its cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion
We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Organization and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements
Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Organization's ability to continue as a going concern within one year after the date that the financial statements are issued or available to be issued.

Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Organization's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Organization's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Lutz & Company, P.C.

1. Summary of Significant Accounting Policies

A summary of the significant accounting policies consistently applied in the preparation of the accompanying financial statements is set forth below.

Nature of Business

Lincoln/Lancaster County Habitat for Humanity, Inc. (the Organization) is a not-for-profit corporation incorporated on February 12, 1988. The Organization is an affiliate of Habitat for Humanity International, Inc. (HFHI), a nondenominational Christian not-for-profit organization whose purpose is to create decent, affordable housing for those in need and to make decent shelter a matter of conscience with people everywhere. The Organization's ReStore is a home improvement and donation center that sells donated or purchased building materials, appliances, furniture and home accessories. The Organization's support comes primarily from contributions and grants.

Basis of Presentation

The Organization follows Accounting Standards Update (ASU) 2016-14, Not-for-Profit Entities (Topic 958) – *Presentation of Financial Statements of Not-for-Profit Entities*.

Net Assets Without Donor Restrictions – Net assets whose use is not restricted by donors, even though their use may be limited in other respects, such as by contract or by board designation.

Net Assets With Donor Restrictions – Net assets whose use has been limited by donor-imposed stipulations that may or will be met either by actions of the Organization and/or by the passage of time. Net assets restricted by the actions of the Organization and/or the passage of time are temporary in nature. Other donor-imposed stipulations are perpetual in nature, where the donor stipulates that resources be maintained in perpetuity by the Organization.

Revenues are reported as increases in net assets without donor restrictions unless use of the related assets is limited by donor-imposed restrictions, in which case the revenues are reported as increases in net assets with donor restrictions. Expenses are reported as decreases in net assets without donor restrictions. Revenues and expenses are recognized when earned and incurred, respectively. Expirations of net assets with donor restrictions that are temporary in nature (i.e., the donor-stipulated purpose has been fulfilled and/or the stipulated time period has elapsed) are reported as reclassifications between the applicable classes of net assets.

Contributions restricted by donors received in the same period when the associated stipulated time or purpose restriction is accomplished are reported as increases in net assets without donor restrictions. All other donor-restricted contributions are reported as increases in net assets with donor restrictions, depending on the nature of the restrictions.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Cash and Cash Equivalents

For purposes of the statements of cash flows, the Organization considers all highly liquid investments with a maturity of three months or less to be cash and cash equivalents.

Restricted Cash

The Organization currently services the mortgages on the homes it sells. Included in restricted cash and funds held in escrow are amounts received for insurance and property taxes on such homes. Additionally, the Organization maintains cash reserves as required by a bank.

Trade Accounts Receivable

Trade accounts receivable are carried at original invoice amount less an estimate for credit losses. Management determines the allowance for credit losses by regularly evaluating the aging of customer receivables and considering a customer's financial condition, credit history, current economic conditions and forecasts about future economic conditions. Trade accounts receivable are written off when deemed uncollectible. Recoveries of trade accounts receivable previously written off are recorded when received. Based on management's assessment of the credit history and current relationships with customers having outstanding balances at year-end, management has concluded that recording an allowance for credit losses would be insignificant.

Grants Receivable

Grants receivable are reported at the amount management expects to collect from balances outstanding at year-end. Based on management's assessment of the credit history and current relationships with grantors having outstanding balances at year-end, management has concluded that recording an allowance would be insignificant.

Notes Receivable

Notes receivable consists of noninterest-bearing notes which are secured by real estate. Repayment to the Organization shall occur by the homeowner at such time the resident sells the property or discontinues use of the property as their permanent residence.

Notes receivable also consists of unsecured noninterest-bearing notes which are payable in monthly installments over the life of the note. The discount on such notes is not significant to the financial statements.

Notes receivable are reported at the amount management expects to collect from balances outstanding at year-end, less an estimate for credit losses. Management determines the allowance for credit losses by regularly evaluating the aging of customer receivables and considering a customer's financial condition, credit history, current economic conditions and forecasts about future economic conditions. Based on management's assessment of the credit history and current relationships with customers having outstanding balances at year-end, management has concluded that recording an allowance for credit losses would be insignificant.

Mortgage Loans Receivable

Mortgage loans receivable consist of noninterest-bearing mortgages which are secured by real estate and payable in monthly installments over the life of the mortgage. Noninterest-bearing mortgages have been discounted based upon prevailing market rates for low-income housing at the inception of the mortgages. Utilizing a straight-line basis, this discount will be recognized as income over the term of the mortgage.

Mortgage loans receivable are reported at the amount management expects to collect from balances outstanding at year-end, net of the discount, less an allowance for credit losses. Management determines the allowance for credit losses by regularly evaluating the aging of customer receivables and considering a customer's financial condition, credit history, current economic conditions and forecasts about future economic conditions. Based on management's assessment of the credit history and current relationships with customers having outstanding balances at year-end, management has concluded that recording an allowance for credit losses would be insignificant.

The Organization may sell mortgages to financial institutions. When this occurs, the unamortized balance of the loan discount upon the sale of the loan is included in mortgage loan discount amortization on the statements of activities and changes in net assets. The mortgage sold is derecognized from the mortgage loans receivable balance on the statements of financial position.

Contract Balances

Trade accounts receivable is an unconditional right to consideration and is recognized when the Organization's performance obligations have been fully satisfied. Trade accounts receivable totaled $748,203, $2,727, and $146,555 at June 30, 2025, 2024, and 2023, respectively.

Contract assets represent a conditional right to consideration in exchange for goods or services and are transferred to trade accounts receivable when the rights become conditional. At June 30, 2025, 2024, and 2023, there were no contract assets recorded.

Contract liabilities include consideration due or paid by a customer prior to when the Organization transfers goods or services and represents the Organization's obligation to the customers. Contract liabilities are included in the statements of financial position as lots to be transferred to homeowners and totaled $0, $80,235, and $147,755 at June 30, 2025, 2024, and 2023, respectively.

Concentration of Credit Risk

The Organization has several types of financial instruments subject to credit risk. The Organization maintains bank accounts in which the balances sometimes exceed the Federal Deposit Insurance Corporation (FDIC) limit of $250,000. At June 30, 2025 and 2024, there were cash balances in excess of FDIC limits at the bank of approximately $37,000 and $407,000, respectively.

The Organization's cash equivalents, trade accounts receivable, grants receivable, mortgage loans receivable, and notes receivable are also subject to credit risk.

Inventories

Lots and homes inventory includes land and building materials used in construction of houses to be sold. Lots and homes inventory is valued at the lower of cost or net realizable value.

ReStore inventory consists of purchased and donated building materials and household items. Purchased inventory items are valued at the lesser of cost or net realizable value. Donated items are stated at their estimated net realizable value based on an estimated three months of sales. Net realizable value is the estimated selling price in the ordinary course of business, less reasonable costs of completion, disposal, and transportation. Cost is determined by the first-in, first-out (FIFO) method.

Property and Equipment

Property and equipment are recorded at cost, less accumulated depreciation, if purchased by the Organization. Expenditures for additions and betterments over $500 are capitalized; expenditures for maintenance and repairs are charged to expense as incurred. The costs of assets disposed and the related accumulated depreciation are eliminated from the accounts in the year of disposal. Gains or losses from property disposals are recognized in the year of disposal. Property and equipment received by donation are carried at fair market value at the date of the contribution, less accumulated depreciation.

Depreciation is computed using the straight-line method over the following estimated useful lives:

Buildings	39 Years
Leasehold Improvements	14 Years
Construction Equipment and Vehicles	5-7 Years
ReStore Equipment	3-7 Years
Furniture and Equipment	3-7 Years

Long-Lived Asset Impairment

The Organization evaluates the recoverability of the carrying value of long-lived assets whenever events or circumstances indicate the carrying amount may not be recoverable. If a long-lived asset is tested for recoverability and the undiscounted estimated future cash flows expected to result from the use and eventual disposition of the assets is less than the carrying amount of the asset, the asset cost is adjusted to fair value and an impairment loss is recognized as the amount by which the carrying amount of the long-lived asset exceeds its fair value. Management does not believe any impairment existed at June 30, 2025 and 2024.

Functional Expenses

The costs of providing various programs and other activities have been summarized on a functional basis in the statements of activities and changes in net assets and in the statements of functional expenses. Certain expenses are applied directly to the related program or supporting activities while others require an allocation that is consistently applied. Accordingly, payroll and benefits have been allocated on the basis of each job function and an estimate of time and effort.

Leases

The Organization follows Accounting Standards Update 2016-02, *Leases* (Topic 842) ("ASU 2016-02") which established a right-of-use (ROU) model that requires a lessee to recognize a ROU asset and lease liability on the accompanying statements of financial position for all leases. The Organization determines that a contract contains a lease when it provides the Organization with the right to direct the use of an implicitly or explicitly identified asset for a set period of time. Leases are classified as operating or finance leases at inception based on certain criteria.

The Organization has elected the short-term lease practical expedient to exclude leases with initial terms of 12 months or less from recognition on the accompanying statements of financial position. The Organization utilizes the incremental borrowing rate for determining the present value of future lease payments unless the implicit rate is readily determinable. The Organization accounts for lease and nonlease components in its contracts as a single lease component for all classes of leases. The majority of the Organization's nonlease components are variable in nature and therefore are recorded to expense as incurred.

Revenue Recognition

The Organization follows Accounting Standards Update (ASU) 2014-09, *Revenue from Contracts with Customers* (Topic 606). Contributions, grants, and fundraising revenues are not subject to ASU 2014-09 and have been recognized in accordance with Accounting Standards Codification 958, *Not-for-Profit Entities.* Below are descriptions of the Organization's main revenue streams, as disaggregated by type on the accompanying statements of activities and changes in net assets.

<u>ReStore Sales</u>
ReStore is a home improvement and donation center that sells donated or purchases building materials, appliances, furniture, and home accessories. Revenue is recognized at the point of sale.

Contributions

Contributions are recognized when a donor makes a promise to give that is, in substance, unconditional. Conditional promises to give, that is, those with a measurable performance or other barrier, and a right of return, are not recognized until the conditions on which they depend have been substantially met. The Organization had no conditional contributions at June 30, 2025 and 2024.

Grants

The Organization is the recipient of federal, state, and local grants to fund its primary programs. Grants are recorded as revenue when the related and approved expenditures are made. At June 30, 2025 and 2024, conditional reimbursement-basis grants of $513,824 and $1,063,598 were awarded to the Organization in which the related expenditures have not been incurred and therefore have not been reflected on the accompanying financial statements.

Sales to Homeowners

Home sales are recognized as revenue at a point in time upon the closing of the sale.

Fundraising

The Organization holds fundraising events to raise money to support program services. Revenue that is received in exchange for a benefit is recognized at the fair value of the benefit received at a point in time when the event takes place. Payments received in excess of the amount received in exchange for a benefit is recognized as contribution revenue.

Other Program Revenue - Silent Recapture

The Organization includes a second promissory note with the sale of a home when the fair market value of the home exceeds 30% of the buyer's gross income. This note is not included as an asset or income when it originates since it is forgivable by written terms of the note and mortgage, which creates significant uncertainty regarding collectability. Events triggering the borrower's obligation to pay include abandonment, conveyance, or default in payment of the first loan if the default continues after the Organization gives the borrower notice of default and the time within which it must be cured. Silent recapture income is recognized at a point in time when a related home is sold or refinanced by the homeowner and is included in the statements of activities and changes in net assets under other program revenue.

Other Program Revenue - Repairs Income

The Organization provides repair services to low-income households and finances all or a portion of the price of the repair. Revenue for repairs is recognized at a point in time when the repair is completed and is included in the statements of activities and changes in net assets under other program revenue.

Mortgage Loan Discount Amortization

The Organization discounts mortgage receivable to reflect the value of the zero-interest mortgages more fairly on the statements of financial position. The discount is the difference between the face value of the mortgage and the current value of the mortgage, calculated using the term of the mortgage and the appropriate discount rate. The discount expense is recorded in the first year of the mortgage and is recaptured as revenue over the life of the mortgage.

Donated Materials and Services

Donated materials are recorded as contributions at their estimated fair value at the date of donation, which is determined by the resale value of the goods that are donated to ReStore. Donated services are recognized as contributions if the services (a) create or enhance non-financial assets or (b) require specialized skills, are performed by people with those skills, and would have otherwise been purchased by the Organization. Many individuals also provide their time and perform a variety of tasks that assist the Organization with its operations. The volunteer hours have not been recorded in the financial statements as those services do not meet the criteria for recognition.

It is the Organization's policy to sell all contributed assets not for sale at ReStore immediately upon receipt at auction or for salvage value unless the asset is restricted for use in a specific program by the donor. See Note 13.

Accrued Vacation

Full-time, year-round employees are entitled to paid vacation depending on the length of service and other factors. Accrued vacation for the years ended June 30, 2025 and 2024 was $29,337 and $23,914, respectively, and is included in accounts payable and accrued expenses. The Organization's policy is to pay this liability upon termination of employment.

Advertising Costs

The costs of advertising are expensed as incurred. Advertising costs were approximately $59,000 and $47,000 for the years ended June 30, 2025 and 2024, respectively.

Income Taxes

The Organization is exempt from federal income taxes under Section 501(c)(3) of the Internal Revenue Code. The Organization applies the provisions of FASB Interpretation No. 48 (FIN 48), *Accounting for Uncertainty in Income Taxes*, included in ASC Subtopic 7410-10, *Income Taxes – Overall*. ASC 740-10 provides specific guidance on how to address uncertainty in accounting for income tax assets and liabilities, prescribing recognition thresholds and measurement attributes. At June 30, 2025 and 2024 , the Organization had no uncertain tax positions.

The Organization is no longer subject to income tax examinations by federal, state, or local tax authorities for years before June 30, 2022.

Reclassifications

Certain reclassifications have been made to the 2024 financial statements to conform to the 2025 presentation.

Subsequent Events

Subsequent events are events or transactions that occur after the statement of financial position date, but before the financial statements are available to be issued and may require potential recognition or disclosure in the financial statements. Management has considered such events or transactions through January 8, 2026. In September 2025, the Organization's Restore location sustained significant fire damage. The fire caused estimated damages of $50,000 to the building. Management is actively working on filing an insurance claim to recover the full amount of these damages.

2. Mortgage Loans Receivable

Mortgage loans receivable to the Organization are discounted from their stated rates to various rates ranging from 7.23% to 8.53% at the inception of the mortgages, as dictated by HFHI. The Organization determined no provision for loan losses is required because the fair market value of the homes is typically in excess of the related mortgage loan balance.

Mortgage loans receivable at June 30 consists of the following:

	2025	2024
Mortgage Loans Receivable	$ 3,848,738	$ 4,164,411
Mortgage Loans Discount	(2,421,452)	(2,577,452)
	$ 1,427,286	$ 1,586,959

In prior years, the Organization sold mortgages with outstanding balances to a third-party financial institution. The Organization retains full recourse on these mortgages and continues to service and guarantee the mortgages. The Organization retains the right to substitute similar mortgages in case of default by the homeowners to pay the mortgage. At June 30, 2025 and 2024, the amount of loans still outstanding subject to the Organization's guarantee was approximately $233,000 and $290,000, respectively.

3. Lots to Be Transferred to Homeowners

The Organization receives funds from the City of Lincoln Housing Development Loan Program (HOME) to purchase lots for the purpose of constructing homes for low-income families.

Under the HOME Program, the Organization agrees to begin construction of single-family homes within one year from the date the Organization receives title of each lot purchased, and to complete construction within one year from the start of construction. Each home must then be transferred to a low-income family, at which time the obligation to repay the loan to the City of Lincoln for the lot purchased is also transferred to the homeowner. Repayment to the City of Lincoln shall occur by homeowners at such time they sell the property or discontinue use of the property as their permanent residence.

At June 30, 2025, the Organization did not hold any lots purchased with HOME funds. At June 30, 2024, the Organization held lots purchased with HOME funds with a total value of approximately $80,000.

4. Inventory

Inventory at June 30 consists of the following:

	2025	2024
Lots	$ 397,445	$ 293,800
Homes Under Construction	339,713	290,858
ReStore Inventory	227,965	196,287
	$ 965,123	$ 780,945

5. Property and Equipment

Property and equipment at June 30 consists of the following:

	2025	2024
Land	$ 98,447	$ 98,447
Buildings and Improvements	274,387	274,387
Leasehold Improvements	112,107	107,308
Construction Equipment	103,157	103,157
Vehicles	101,411	101,411
ReStore Equipment	112,124	104,134
Furniture and Equipment	88,789	88,789
Total Cost	890,422	877,633
Less Accumulated Depreciation	(426,588)	(367,066)
Net Book Value	$ 463,834	$ 510,567

6. Employee Retention Credit

The Coronavirus Aid, Relief, and Economic Security (CARES) Act contained significant business tax provisions, including a deferral of payments and an employee retention credit for employer payroll taxes. During the year ended June 30, 2025, the Organization received credits totaling $80,270, which have been reflected in miscellaneous income in the 2025 statement of activities and changes in net assets. There are no additional employee retention credits to be received by the Organization.

7. Notes Payable

Notes payable at June 30 consists of the following:

	2025	2024
Installment note payable to a bank, payable in monthly installments of $1,000, including interest at 2.25% through March 31, 2030, at which time all unpaid principal and interest are due, collateralized by a Deed of Trust on certain buildings, land, inventory and equipment.	$ 213,314	$ 220,352
Installment note payable to HFHI. Due in quarterly installments of $10,345 which includes interest at 3.75%, maturing on December 31, 2029. The note payable is collateralized by certain mortgages.	173,990	205,856
Total Notes Payable	$ 387,304	$ 426,208

The aggregate maturities of long-term debt for years ending after June 30, 2025, are as follows:

Year Ending June 30,	
2026	$ 42,701
2027	44,217
2028	45,775
2029	47,415
2030	207,196
	$ 387,304

The Organization is subject to certain financial and nonfinancial covenants with which the Organization was in compliance or obtained a waiver as of June 30, 2025 and 2024.

8. Line of Credit

The Organization has a $140,000 demand line of credit, of which $60,000 was drawn down as of June 30, 2025. No amounts were drawn down as of June 30, 2024. The interest rate is 0.50% plus the Prime Rate, which was 7.50% and 8.50%, respectively, at June 30, 2025 and 2024.

9. Restrictions and Limitations on Net Assets Balances

Net assets with donor restrictions that are temporary in nature are available for the following purposes at June 30:

	2025	2024
New Construction and Repairs	$ 442,399	$ 488,719
Closing Costs	60,000	60,000
Aging-in-Place Program	49,881	50,000
	$ 552,280	$ 598,719

Net assets were released from restrictions by incurring expenses satisfying the restricted purpose or by the occurrence of their specified events for the years ended June 30 as follows:

	2025	2024
New Construction and Repairs	$ 46,320	$ -
Aging-in-Place Program	119	-
	$ 46,439	$ -

10. Defined Contribution Plan

The Organization maintains a 401(k) plan for eligible employees. The plan provides a matching contribution in an amount equal to 3% of the eligible employee's annual contribution. The Organization contributed approximately $21,000 and $20,000 to the 401(k) plan for the years ended June 30, 2025 and 2024, respectively.

11. Payments to International Affiliate

The Organization annually remits a portion of its cash contributions to HFHI. These funds are used to construct homes in economically depressed areas around the world. For the years ended June 30, 2025 and 2024, the Organization contributed $2,000 and $25,000, respectively. Additionally, the Organization remits SOSI (Stewardship and Organizational Sustainability Initiative) payments for Habitat ReStore support to HFHI. For the years ended June 30, 2025 and 2024, the Organization contributed $5,887 and $0, respectively.

12. Liquidity and Cash Management

The Organization's financial assets available to meet cash needs for general expenditures within one year of June 30 are calculated as follows:

	2025	2024
Cash and Cash Equivalents, Undesignated	$ 303,223	$ 1,004,218
Trade Accounts Receivable	748,203	2,727
Grants Receivable	105,519	77,135
Total Financial Assets	1,156,945	1,084,080
Less Amounts Not Available for General Expenditures		
Net Assets with Donor Restrictions	(552,280)	(598,719)
Financial Assets Available to Meet Cash Needs for General Expenditures Within One Year	$ 604,665	$ 485,361

Trade accounts receivable and grants receivable are subject to implied time restrictions but are expected to be collected within one year.

The Organization manages its liquid resources by structuring its financial assets to be available as its general expenditures, liabilities, and other obligations become due. In addition, the Organization invests cash in excess of daily requirements in short-term federal investment trusts. Although the Organization does not intend to spend from its investments other than amounts appropriated for general expenditures as part of its annual budget approval and appropriation process, amounts could be made available, if necessary. Additionally, the Organization could obtain additional funding from its line of credit, if needed.

13. In-Kind Contributions

Contributed nonfinancial assets recognized as revenue within the statements of activities and changes in net assets consist of the following at June 30:

Nonfinancial Contributions	Valuation	2025	2024
Merchandise	Third party values based on selling prices of like items	$ 668,100	$ 930,977
Construction Supplies	Third party values based on selling prices of like items	188,684	18,146
Labor and Construction Services	Standard industry pricing for similar services	30,000	-
Totals		$ 886,784	$ 949,123

Unless otherwise noted, contributed nonfinancial assets did not have donor-imposed restrictions. Donated merchandise is used in the ReStore program and the construction supplies, labor, and construction services were used in the Homeowner Services program.

14. Leases

The Organization leases a building and certain equipment which are all classified as operating leases. The leases expire on various dates through 2042. The renewal options for the building was included in the calculation of the operating right-of-use assets and operating lease liabilities as the Organization is reasonably certain to exercise the renewal options.

For the years ended June 30, total lease cost and other information included in the calculation of the operating right-of-use assets and lease liabilities consisted of the following:

	2025	2024
Lease Cost		
Operating Lease Expense	$ 268,566	$ 268,566
Other Information		
Cash Paid for Amounts Included in the Measurement of Lease Liabilities:		
Operating Cash Flows from Operating Leases	$ 218,653	$ 218,651
Weighted-Average Remaining Lease Term (Years)	17.0	17.2
Weighted-Average Discount Rate	3.32%	3.32%

Future minimum lease payments under these leases, excluding other related operating expenses, for the years ending after June 30, 2025, and their reconciliation to the operating lease liabilities included in the accompanying financial statements are as follows:

Year Ending June 30,	
2026	$ 228,672
2027	233,679
2028	239,999
2029	246,314
2030	252,630
Thereafter	3,646,426
Total Future Lease Payments	4,847,720
Less: Discount to Present Value	(1,223,387)
Total Lease Liabilities	$ 3,624,333
